

University of Lethbridge
Department of Mathematics and Computer Science
MATH 1560 - Standards Workbook

First Name: _____

Last Name: _____

This booklet contains one page for each of the standards that you will be working towards in class. **Keep this booklet, and bring it with you to each class.** You will need it to be able to submit your work.

Make a note of the data added by the Crowdmark system at the top of each page. You will see a line that says something like “# 123 3 of 36”. That number (123) is the number of the booklet that has been assigned to you in Crowdmark. To ensure that you get credit for your own work, it’s important that you do not mix up your booklet with someone else.

If you lose your booklet, you’ll be able to download a replacement from Moodle.
