**MATH 1560 - Test #1 – Group Stage**  
Examiner: Sean Fitzpatrick

Record the names of your group members below. Groups must contain between 3 and 5 members.

**Please print clearly.**

- |                     |                   |
|---------------------|-------------------|
| 1. Last Name: _____ | First Name: _____ |
| 2. Last Name: _____ | First Name: _____ |
| 3. Last Name: _____ | First Name: _____ |
| 4. Last Name: _____ | First Name: _____ |
| 5. Last Name: _____ | First Name: _____ |

Print your name and student number clearly in the space above. You may remove this cover page, and use the back for scrap paper. If you want any work on the back of this page to be graded, you must clearly indicate this on the page containing the corresponding question.

Answer the questions in the space provided. Show all work and necessary justification. Partial credit may be awarded for partially correct work.

No outside aids are permitted, with the exception of a basic calculator.

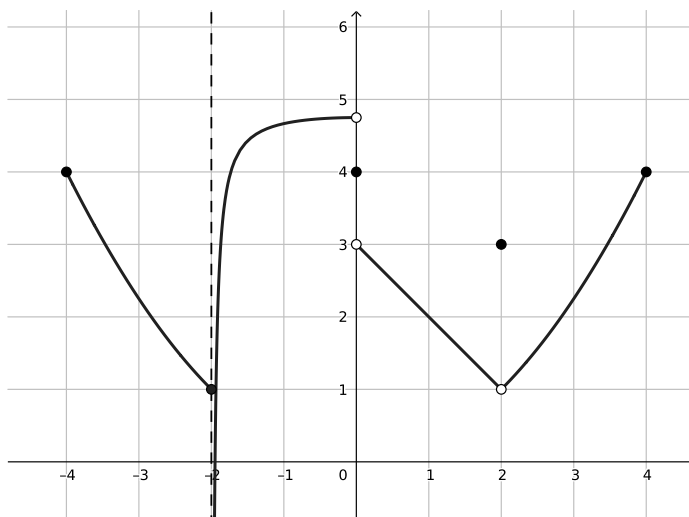

1. Evaluate the following limits:

[3]      (a)  $\lim_{x \rightarrow 3} \frac{x^2 - 6x + 9}{x^2 - 5x + 6}$

[3]      (b)  $\lim_{x \rightarrow 0} \frac{\tan(7x)}{x}$

[3]      (c)  $\lim_{x \rightarrow 1} \frac{\sqrt{x} - 1}{x^2 - 1}$  (Suggestion: common denominator.)

- [9] 2. The graph of a function  $f$  is given below:

Determine the following values (write DNE if something does not exist):

(a) The domain of  $f$ : \_\_\_\_\_

(f)  $\lim_{x \rightarrow 2^-} f(x)$ : \_\_\_\_\_

(b)  $\lim_{x \rightarrow -2^-} f(x)$ : \_\_\_\_\_

(g)  $\lim_{x \rightarrow 2^+} f(x)$ : \_\_\_\_\_

(c)  $\lim_{x \rightarrow -2^+} f(x)$ : \_\_\_\_\_

(h)  $\lim_{x \rightarrow 2} f(x)$ : \_\_\_\_\_

(d)  $\lim_{x \rightarrow -2} f(x)$ : \_\_\_\_\_

(e)  $f(-2)$ : \_\_\_\_\_

(i)  $f(2)$ : \_\_\_\_\_
